

Visa case processing in light of Corona Virus/COVID-19

The Danish Government has implemented extensive precautionary measures due to the Corona virus/COVID-19.

You can still apply for a visa to Denmark, however additional restrictions on entry into Denmark might be imposed in the coming days. These include, among other things, the possibility of medical examination on arrival, possible quarantine on arrival from high risk areas and the possibility of rejection of foreigners arriving from high risk areas at the border.

Please stay updated on the [website from Danish Immigration Service](#) and the [website for information from the Danish authorities](#). For information on precautionary health measures implemented in Denmark, please visit the [Danish Health Authorities' website](#).
