

PASSPORT PICTURE

In order to process applications for new Austrian passports pictures must conform with the following specifications:

Dimensions:	38 mm x 48 mm minimum
Color:	medium grade saturation (over or underexposed photos cannot be accepted) black & white photos are not admissible
Background:	white
Surface quality:	smooth high gloss (no imprinted pattern) frameless
View:	frontal facial view neutral facial expression straight head posture, eyes level lips closed If eye glasses (lenses and/or frames) are causing glare/reflections, or if they obstruct the eyes, spectacles must be taken off.

Adults:

eye distance:
10 mm from pupil to pupil
eye position:
above horizontal center line

Infants:

due to cranial anatomy typical for infants, and in order to display the whole head within the dimensions of the passport picture,
- interpupillary distance may be smaller
- eye position may be on or below the horizontal center line.
